

Proceedings of the State Environmental Clearance Committee (SECC) Meeting held on 03.11.2011 under the Chairmanship of the Additional Chief Secretary to Government, Forest, Ecology and Environment Department

* * * * *

Members present: As in the Annexure (Enclosed)

The Additional Chief Secretary to the Government, Forest, Ecology and Environment Department and the Chairman of the SECC welcomed the members of the Committee to the meeting and took up the subjects for discussion as per the agenda.

Agenda 1: Confirmation of the proceedings of the SECC meeting held on 09.06.2011 and 06.07.2011

The meeting Proceedings were read to the Committee and the same were confirmed.

Agenda 2: Action taken report on the proceedings of the SECC meeting held on 09.06.2011 and 06.07.2011

The Action taken report was verified and the action taken was noted.

AGENDA 3: SUBJECTS FOR ENVIRONMENTAL CLEARANCE

Agenda No.3.1 (48) :- M/s. Forgepro India Pvt. Ltd., FEE 101 ECO 2011

M/s. Forgepro India Pvt. Ltd., have submitted the application for environmental clearance for establishment of manufacture of Forged Components for Conveyor Chain Parts of Capacity 1,34,64,662 Pieces/Annum at Plot No. 2,3 & 4, Harohalli Industrial Area Kanakapura Taluk, Ramanagara District with an investment of Rs. 22 Crores. The KSPCB has issued CFE on 05.10.2007.

The project proponent present in the meeting explained the project and clarified that total built up area is 4,936 Sq.mtr. The Committee suggested to proponent not to discharge the waste water but recycle & reuse the wastewater in house only. After deliberation, the Committee decided to obtain the following information from the project proponent :

1. Plan of action to recycle and reuse of waste treated water.
2. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame with donation of one lakh to Bannerghatta Biological National Park as committed in the meeting.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.

3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

**Agenda No.3.2(49) :- M/s. Semler Research Center Pvt. Ltd.,
FEE 92 ECO 2011**

M/s Semler Research Centre Pvt. Ltd., have submitted the application for Environmental Clearance for Establishment of Blood sample drawing Center from the donors for various research purpose at Sy. No. 21, 22 & 23, Kodigehalli Main Road, Sahakar Nagar, Bangalore with an investment of Rs. 7.25 Crores. The KSPCB has issued CFE on 01.12.2010.

The project proponent present in the meeting explained about the project. The Committee observed that as per the revised master plan the project comes under 'Unclassified Zone' and suggested that if any complaint comes for the project, the project has to be shifted. After deliberation, the Committee decided to obtain the following information from the project proponent :

1. MoU for disposal of Bio-medical waste.
2. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company

10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.

9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No.3.3(50) :- M/s. Exasense Labs Ltd., FEE 31 ECO 2011

M/s. Exasense Labs Ltd., have submitted the application for environmental clearance for establishment /Diversification of Thermistors, Thermistor Probes & assemblies, Electronic Thermostars, Temperature Sensor Modules and Ceramic Coated bodies of Capacity 75 millions No's Pieces/year at No. # 85 Electronics city Electronics city post Bangalore with an investment of Rs. 5.96 Crores. The KSPCB has issued CFE on 23.12.2009.

The project proponent was absent however the issue was discussed in detail. After deliberation, the Committee decided to obtain the following information from the project proponent:-

1. Insitu treatment & disposal of waste water rather sending it to common effluent treatment plant.
2. MoU for disposal of Hazardous waste.
3. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project after receipt of above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.

3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the

project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.

13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.

14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No.3.5(52) :- M/s. Cookson India Research Centre, FEE 82 ECO 2009

M/s. Cookson India Research Centre, have submitted the application for environmental clearance for establishment of Research and Development wing to development of new materials and technologies related to electronics assembly and packaging and other high-technology industries at Vaishnavi Bhavana, No. 89/1, Industrial Suburb, 2nd Stage, Yeshwanthpur, Bangalore – 560 022.

It is observed from the KSPCB letter dated: 07.06.2011 that the board has issued CFE on 25.09.2007 and thereafter CFO also issued on 13.04.2010 and renewed till 30.06.2012 without obtaining environmental clearance from the Department, it is violation of the G. O. No. FEE 14 ENV 2000 dated 31.12.2001.

The proponent has to submit the following information:

1. Land records.
2. Project cost.
3. Detailed environmental management plan.
4. CFE/CFO issued by the KSPCB.
5. Affidavit on stamp paper.
6. Project location marked on 1:50,000 scale (10 Km radius) toposheet.
7. Ambient air quality analysis report from approved laboratory.
8. Details of solid waste generated.

The project proponent has submitted the above said information/documents to the Department.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project after receipt of Specific Social Commitment Plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.

3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the

project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No.3.6(53) :- M/s. Shiraguppi Sugar Works Ltd., FEE 80 ECO 2011

M/s. Shiraguppi Sugar Works Ltd., have submitted the application for environmental clearance for establishment of new Sugar Industry with Sugar Cane Crushing capacity of 4000 TCD at Sy No. 40/1, 40/2B, 48/2B, 49/1+2A, 49/2B+3A, 49/3B, 49/4,50/1,50/3,50/4,50/1+2A/1, 53/1+2,54/1A, 54/2B, 54/1B+2A, 41/2, 41/3,49/1+2B, 23, Kagwad Village, Athani Taluk, Belgaum District with an investment of Rs. 1692.00 Lakhs. The KSPCB has issued CFE on 03.02.2007

The project proponent present in the meeting explained the project. The Committee has discussed about the source of raw material, recycling of water, capacity of production etc., After deliberation, the Committee decided to obtain the following information from the project proponent :

1. Onsite emergency Plan approved by the Factories and Boilers Department.
2. Commitment not to use coal or other auxillary fuel exceeding 15% of the fuel requirement.
3. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I) The project proponent shall:

- 1) Strictly follow the CFE/CFO conditions issued by the KSPCB..
- 2) Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
- 3) Ensure interlocking arrangement for ESP with separate electric meter should be provided. Daily log book for the electric meter reading should be maintained and monthly extract to be submitted to Regional Director (Environment) Ecology and Environment Department and Regional Office, KSPCB.
- 4) Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
- 5) Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
- 6) Not discharge wastewater outside the premises of the industry and details of disposal plan should be submitted within 3 months. Use STP/ETP treated water for sugarcane seed farm/gardening and for toilet flushing and separate pipelines should be laid for the purpose
- 7) Earmark 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auricaliformis, Mahgoni, Madhuka indica, Silver oak, Pongamia, Simaruba glauca, etc within 6 months and submit compliance report.
- 8) Utilize solar power for street lighting, common areas lighting and water heating in the industry and also ensure replacement of conventional electric bulbs with CFL within 6 months and submit report.
- 9) Submit a report on the details of health checkup programmes conducted to the Director, Factories & Boilers Department immediately. In future a quarterly report should be submitted in this regard.

- 10) Comply with all the environmental protection measures incorporated in the EMP. Utilization of land shall be restricted to 35 acres which is already in possession of the project authorities.
- 11) Use only bagasse as fuel.
- 12) Ensure 100% utilization of ash from the date of operation of the plant. Ash may also be mixed with press mud and composted and used as manure/ given to farmers.
- 13) Meet water requirement from the existing available water allocation. No ground water shall be drawn for the power plant at any stage.
- 14) Ensure installation of dust extraction and suppression system and water sprinklers for controlling fugitive dust during transport of material and in vulnerable areas of the plant.
- 15) Limit noise level to 75 dBA. For people working in high noise area, requisite personal protective equipment like earplugs, etc. shall be provided.
- 16) Regularly carry out the air and water quality monitoring in and around the power plant and records be maintained. Six monthly reports shall be submitted to this Department.
- 17) Advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the vernacular language of the locality concerned, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the this Department and the Karnataka State Pollution Control Board.
- 18) Set up a separate environment management cell with qualified staff for implementation of the stipulated environmental safeguards.
- 19) Allocate separate funds for implementation of Environmental protection measures along with item-wise break-up. These costs shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure shall be reported to this Department.
- 20) Inform this Department and the Regional Director (Environment), Ecology and Environment Department regarding the date of financial closure and final approval of the project by the concerned authorities and the dates of start of land development work and commissioning of plant.
- 21) Make a fresh reference to the Department to assess the adequacy of the condition(s) imposed and to add additional environmental protection required, if any, in case of fresh proposal for any deviation or alteration in the project proposed from those submitted to this Department for clearance
- 22) Obtain all other statutory clearances /permissions required to be taken by the company
- 23) Submit six monthly compliance report to these conditions to the Department without fail.
- 24) The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environmental Impact Assessment Report and the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under and the Environment Impact Assessment Notification, 2006.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc., shall be provided with ear plugs/muffs.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.

11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.7(54): M/s. Nash Industries (EOU)., FEE 122 ECO 2011

M/s. Nash Industries (E.O.U)., have submitted the application for environmental clearance for establishment of new industry to Carryout Powder Coating on Components of capacity 1000 MT/annum at No. 235, 8th Main, 3rd Cross, 3rd Phase, Peenya Industrial area Bangalore with an investment of ₹. 642 Lakhs. The KSPCB has issued CFE on 14.06.2011.

The project proponent present in the meeting explained the project. The Committee observed that project is located in Peenya Industrial Area which is Critically Polluted Area in India as per the report of the MoEF, GoI, New Delhi. KSPCB was asked to submit Status of Action Plan preparation to combat this critically polluted industrial area. The proponent has committed Rs.2.00 lakh to sponsor to Bannerghatta Biological National Park toward corporate Social Commitment Plan.

After deliberation, the Committee decided to obtain the following information from the project proponent :

1. MoU between the project proponent and authorized persons for disposal of Hazardous waste.
2. Status of implementation of action plan prepared by the KSPCB to combat this critically polluted industrial site.
3. Commitment with regard to contribute of Rs.2.00 lakh to Bannerghatta Biological National Park towards corporate Social responsibility.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to

- assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
 6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
 7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
 8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
 9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
 10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
 11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
 12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
 13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
 14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

**Agenda No. 3.8(55): M/s. Chloride Alloys India Ltd.,
(Formerly Known as Leadage Alloys India Ltd.) FEE 110 ECO 2011**

M/s. Chloride Alloys India Ltd., (Formerly Known as Leadage Alloys India Ltd.,) they are Secondary lead Manufacturer of Lead, lead alloys and small components,

they manufacture product from recycling of used lead acid batteries and further refining. They are in operation in the name of leadage alloys India Ltd., since 2003 and their company name was to changed Chloride Alloys India Ltd., from 15th June 2011, they have submitted, the application for environmental clearance for first time for, expansion of smelting of capacity of 24,000 MT/A to 96,000 MT/A, Battery Breaking Machine of 15 Tons/at No. 60/1 &2, Seethanayakanahalli, Lakkur Hobli, Malur Taluk, Kolar District with an investment of Rs. 445.623 Lakhs The KSPCB has issued CFE on 19.07.2010.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame and payment of the Rs.5 lakh to Bannerghatta Biological National Park as committed.

The Committee further decided to issue environmental clearance to the project after receipt of Specific Social Commitment Plan from the project proponent.

1). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.

13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.

13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

**Agenda No. 3.10(57): M/s. Surya Chandra Energy Pvt. Ltd.,
FEE 100 ECO 2011**

M/s. SuryaChandra Energy Pvt. Ltd., have submitted the application for environmental clearance for establishment of 4.0 MW Capacity Balaganur MHS across Maski river near Balaganur Village, Sindhanur Taluk, Raichur District, with an investment of Rs. 2310.56 Lakhs.

The project proponent present in the meeting explained about the project. The Committee has discussed about this project in detail that as this project does not come under Western Ghats and in forest area. After deliberation, the Committee decided to

obtain the CFE issued by the KSPCB and Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project after receipt of above informations from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Undertake river bank/canal bank afforestation programme.
9. Comply with all the environmental protection measures incorporated in the EMP.
10. Obtain all other statutory clearances /permissions required to be taken by the company
11. Submit six monthly compliance report to these conditions to the Department without fail.
12. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
13. The project proponent shall also maintain the road from project site to main road.
14. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management

Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.

3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.

10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.

14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.11(58): M/s. Suraj Minerals, FEE 66 ECO 2011

M/s. Suraj Minerals have applied for Environment Clearance for their new dolomite Minerals mining on a mining lease area of 4.85 ha at Sy.No.116, Tondikatti Village, Ramdurg Taluk, Belgaum district. The Dolomite from this mine will be used for steel plant and sugar factories. The produced dolomite from this area is proposed to be sold to industries in Karnataka and Maharashtra and Goa.

The Karnataka State Pollution Control Board has issued Consent For Establishment vide letter No.PCB/SEO/MINE/CFE/2009-10/580 dated 07.02.2010. Approved IBM Plan is obtained vide letter MP/MAN-637 (KNT)/GOA/2008-09 dated 12.03.2009

The Regional Director (Environment), Belgaum has inspected this project on 20.07.2011 and reported on 23.07.2011 and suggested as follows: -

- 1) SgAAaA aAAVEUA@zA° aIEAA F YAzEA+AZA ,AAVAU@E °EAaAA aAAVAU °EAEUEAIAA PÀµÀ× 500 ,A¹UA/VEAAB EEI AO ¥EAEÄ¶,AA°AAZAA.
- 2) CPAYAPAZA gEEvAgA aAAEA°EÇ° 1 C°AgAAUA/VA °EAE®UA/VA SÇAIAA°è PÀµÀ× 500 °EAaAA aAAVAU °EAEUE ,A¹UA/VEAAB SgAAaA aAAVEUA@zA° aIEAA EEI AO ¥EAEÄ¶,AA°AAZAA. F YAzEA+AZA ¥AE°AÖZÀ PÀQÉUE °AqAAO °aAIÄÖt aAIÄr aAAVE°AgAEEAAB PE/AIAIAAè aAIÄqAA°AAZAA.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame,

The Committee further decided to issue environmental clearance to the project for production of 25000 tonnes of Dolomite/Annum with the following conditions and suggestions made by the Regional Director (Environment), Belgaum & after receipt of the specific social commitment plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.

2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum.
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.
14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-around the mine area in the buffer zone and on the approach road sides up to 2 Kms length.

19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.

7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda No. 3.12(59): Sri. Shivanand.S.Melligeri (FEE 18 ECO 2011)

Sri.Shivanand.S.Melligeri has applied for environmental clearance for expansion of dolomite mining from 3300 Tonnes/year to 60,000 Tonnes/year capacity at Sy.No.274 (P), 275 (P), Shirur Village, Bagalkot Taluk & District over an area of 4.25 Ha extent. Total investment of the project is Rs.20 Lakhs. The mining is 'B' category (open cast Manual Mining) and Non-Forest (Revenue). Drilling & Blasting is by Jack Hammer and tractor mounted compressor. The dolomite mined will be used as flux in steel making process, ferrous industries, mosaic tile manufacturing plants, washing power and glass industries.

The KSPCB has issued CFE for dolomite mining capacity of 3300 Tonnes/year vide letter No. KSPCB/RO-BGK/CFE/2006-07/1048 dated 07.08.2006. Environmental Clearance was issued vide letter No.FEE 301 ECO 2006 dated 04.07.2008 along with corriugendum vide letter No. FEE 194 ECO 2008 dated 10.02.2009. Combined consent order was issued on 31.07.2010.

Modified Mining Plan including Progressive Mine Closure Plan (ML No.2606) is approved by Regional Controller of Mines, Goa vide No.MP/MAN-586 (KNT)/GOA/2006-07 Vol.I dated 06.01.2011. The Mining Lease is granted vide No.

DMG/175 AML 05/08-09/15403-09 dated 31.03.2009 for a period of 20 years from Department of Mines and Geology, Government of Karnataka.

The KSPCB has issued CFE (Expansion) for increasing Dolomite mining capacity from 3300 TPA to 60,000 TPA vide letter No.KSPCB/SEO/MINE/CFE/2011-12/59 dated 21.04.2011 with condition that the proponent shall obtain EC from SECC, Government of Karnataka.

The Proponent has submitted on 26.07.2011 the following information as per this office letter dated 07.06.2011:

1. Total Mineable Reserves: 2,301,908 Tonnes.
2. It is proposed to exploit the mining reserves as follows: 2010-11: 60,000 tonnes; 2011-12: 60,000 tonnes, 2012-13: 60,000; 2013-14: 60,000 tonnes
3. Production achieved during previous years: 2009-10: 2414 tonnes; 2010-11: 3300 tonnes; 2011-12 (during April and May): 600 tonnes.

The project proponent present in the meeting explained the project. The proponent informed that they are proposing for expansion of dolomite mining from 3300 Tonnes/year to 60,000 Tonnes/year capacity. As the Director, Mines & Geology was absent, the Committee discussed the issue in detail and decided to issue Environmental Clearance for mining 25,000 TPA of dolomite only after obtaining specific social commitment plan with details of work proposed, place, budget allocated and time frame from the project proponent.

The Committee further decided to issue environmental clearance for mining 25,000 TPA to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.

4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum,
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.
14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-around the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.

22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.

10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda 3.13 (60) : M/s. Anand Minerals. (FEE 62 ECO 2011)

M /s. Anand Minerals., have submitted the application for environmental clearance for production of Dolomite ML. No 2389 over an extent of 4.86 Ha., at Sy. No. 31 & 40 Dhavaleshwar Village, Taluk Gokak, District Belgaum with an investment of ₹. 23.87 Lakhs.

The Regional Director (Environment), Belgaum has inspected this project on 27.07.2011 and reported on 08.08.2011 and suggested as follows: -

1. ಯಾಚಿಸಿರುವ ಅನಂದ ಮಿನರಲ್ಸ್ ಸಂಸ್ಥೆಯು 500 ಏಕರ ಎತ್ತರವನ್ನು ಹೊಂದಿರುವ ಡೋಲಮೈಟ್ ಮಣಿಯನ್ನು ತೆರೆದುಕೊಳ್ಳುವುದರಲ್ಲಿ ಸರ್ಕಾರದ ಅನುಮೋದನೆ ಪಡೆಯುವುದು.
2. ಡೋಲಮೈಟ್ ಮಣಿಯು 500 ಏಕರ ಎತ್ತರವನ್ನು ಹೊಂದಿರುವುದರಿಂದ ಅದರ ಸುತ್ತಲಿನ ಪ್ರದೇಶವನ್ನು ಸುರಕ್ಷಿತವಾಗಿಡುವುದು ಮತ್ತು ಅದರ ಸುತ್ತಲಿನ ಪ್ರದೇಶವನ್ನು ಸುರಕ್ಷಿತವಾಗಿಡುವುದು.
3. ಅನಂದ ಮಿನರಲ್ಸ್ ಸಂಸ್ಥೆಯು 500 ಏಕರ ಎತ್ತರವನ್ನು ಹೊಂದಿರುವ ಡೋಲಮೈಟ್ ಮಣಿಯನ್ನು ತೆರೆದುಕೊಳ್ಳುವುದರಲ್ಲಿ ಸರ್ಕಾರದ ಅನುಮೋದನೆ ಪಡೆಯುವುದು.
4. ಯಾಚಿಸಿರುವ ಅನಂದ ಮಿನರಲ್ಸ್ ಸಂಸ್ಥೆಯು 500 ಏಕರ ಎತ್ತರವನ್ನು ಹೊಂದಿರುವ ಡೋಲಮೈಟ್ ಮಣಿಯನ್ನು ತೆರೆದುಕೊಳ್ಳುವುದರಲ್ಲಿ ಸರ್ಕಾರದ ಅನುಮೋದನೆ ಪಡೆಯುವುದು.

The project proponent present in the meeting explained about the project that they are proposing for dolomite mining for 38,988 Tonnes/year. As the Director, Mines & Geology was absent, the Committee decided that opinion of the DMG is required for mining of more than 25,000 Tonnes/year. Further, Committee decided to give environmental clearance for expansion of dolomite mining for 25,000 Tonnes/year capacity. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame,

The Committee further decided to issue environmental clearance for expansion of dolomite mining for 25,000 Tonnes/year capacity to the project with the following conditions and suggestions made by the Regional Director (Environment), Belgaum & after receipt of the specific social commitment plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum.
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.
14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.

16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-around the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda No. 3.14(61): M/s. Anand Minerals, FEE 65 ECO 2011

M/s. Anand Minerals have applied for Environment Clearance for establishment of Limestone Minerals mine of capacity 34,020 TPA an area of 4.95 Ha at Sy. No. 169/2, 172/2 & 173/2, Dadanahatti village, Mudhol Taluk, Bagalkot District. with an investment of Rs. 20 lakhs. The KSPCB has issued Consent for establishment on 01.03.2010. The Mines & Geology Department has issued Notification for sanction of lease vide No. DMGMLS:1480 AML 08:2010-11/9544 dated 25.09.2010.

The Regional Director (Environment), Belgaum has inspected this project on 20.07.2011 and reported on 23.07.2011 and suggested as follows: -

1. The project is located in the area of Dadanahatti village, Mudhol Taluk, Bagalkot District. The area is under mining lease granted by the Government of Karnataka. The project is proposed to be established in the area of 4.95 Ha. The project is proposed to be established in the area of 4.95 Ha. The project is proposed to be established in the area of 4.95 Ha.

2. CPNAYAPNIZÀ gÉÉvAgÀ aÀÀEAaÉÇ° 1 CªAgÀ °ÉÆ@UAYÀ SzÀAUVA° è CªAj UÉ 'ÉÁPÁZÀ PÀµÀ× 500 ,À¹UAVÆÀÀB ÈÉI ÅÖ ¥ÉÆ¹,ÀªªÀZÀÀ.
3. ªÁÀÀÀªªZÀ SÇUÉ ªÁqÀÀQVAVÆÀÀB µ«ÅÖ,ÀªªÀZÀÀ. ªÀÀVÉ µÁqÀÀ PÉÆAÀÀÀè ªÀÁqÀÀªªZÀÀ.
4. ZÁZÀÈÀ°ÀnÖ UÁªÀÀZÀ ±Á ÉUÉ ZÀÈÀ,À°ÁÀÀÀ µÁqÀÀªªZÀÀ.

The project proponent present in the meeting explained about the project that they are proposing for limestone mining for 34,020 Tonnes/year. As the Director, Mines & Geology was absent, the Committee decided that opinion of the DMG is required for mining of more than 25,000 Tonnes/year. Further, Committee decided to give environmental clearance for expansion of limestone mining for 25,000 Tonnes/year capacity. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame,

The Committee further decided to issue environmental clearance for expansion of dolomite mining for 25,000 Tonnes/year capacity to the project with the following conditions and suggestions made by the Regional Director (Environment), Belgaum & after receipt of the specific social commitment plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum,
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.

7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.
14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-round the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will

monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.

3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.

13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda No.3.15 (62) :- Sri.N.Shivayogi, FEE 25 ECO 2009

Sri. N. Shivayogi, Aluminous Laterite Mine., have submitted the application for environmental clearance for Establishment of Expansion of Laterite/Aluminous Laterite Production capacity from 25,000 TPA to 50,000 TPA at Sy. No. 95 Golyali Village, Khanapur Taluk Belgaum District with an investment of 10 Lakhs. The KSPCB has issued CFE on 15.04.2009.

The Regional Director (Environment), Belgaum has inspected this project on 26.03.2009 and reported on 07.05.2009 and suggested as follows: -

1. $\text{A}z\text{E}\bar{\text{A}}\text{z}\bar{\text{A}} \text{A}z\text{P}\bar{\text{A}} \text{CQIUE} \text{A}t\bar{\text{U}} \text{Mt} \text{A}i\text{z}\bar{\text{A}}\bar{\text{A}}\bar{\text{Y}} \text{F} \text{A}g\bar{\text{A}}\text{C}\bar{\text{Y}}\text{A}z\bar{\text{A}} \text{50} \ll \bar{\text{A}}\bar{\text{A}}\bar{\text{I}} \text{gi} \text{CAV}\bar{\text{A}}z\bar{\text{A}}\text{e} \text{U}\bar{\text{A}}\text{t}\bar{\text{U}}\bar{\text{A}}\bar{\text{J}}\bar{\text{P}}\bar{\text{E}} \text{a}\bar{\text{A}}\bar{\text{I}}\bar{\text{A}}\bar{\text{C}}\bar{\text{A}}\bar{\text{A}}\bar{\text{A}}z\bar{\text{A}} \text{A}\bar{\text{E}}\bar{\text{P}}\bar{\text{A}}\bar{\text{U}}.$
2. $\bar{\text{A}}\bar{\text{U}}\bar{\text{A}}z\bar{\text{A}}\text{e} \text{P}\bar{\text{E}}\text{a}\bar{\text{E}}\bar{\text{C}}\bar{\text{A}}z\bar{\text{A}} \text{A}\bar{\text{U}}\bar{\text{A}}\bar{\text{A}}\bar{\text{A}}\bar{\text{A}}z\bar{\text{A}} \text{E}\bar{\text{Y}}\bar{\text{E}}z\bar{\text{A}} \text{V}z\bar{\text{A}}\bar{\text{U}}\bar{\text{A}}\bar{\text{Y}}\bar{\text{A}}\bar{\text{Y}} \text{C}\bar{\text{A}}\bar{\text{A}}\bar{\text{U}}\bar{\text{A}}\bar{\text{Y}}\bar{\text{U}}\bar{\text{E}} \text{z}\bar{\text{A}}\bar{\text{P}}\bar{\text{E}}\bar{\text{I}}\bar{\text{A}}\bar{\text{A}}\bar{\text{U}}\bar{\text{A}}z\bar{\text{A}}\bar{\text{A}}\bar{\text{V}}\bar{\text{E}} \text{E}\bar{\text{E}}\bar{\text{A}}\bar{\text{I}}\bar{\text{P}}\bar{\text{E}}\bar{\text{Y}}\bar{\text{A}}\bar{\text{A}}\bar{\text{I}}\bar{\text{A}}z\bar{\text{A}} \text{A}\bar{\text{E}}\bar{\text{P}}\bar{\text{A}}\bar{\text{U}}.$
3. $\text{U}\bar{\text{A}}\text{t}\bar{\text{U}}\bar{\text{A}}\bar{\text{J}}\bar{\text{P}}\bar{\text{E}} \text{a}\bar{\text{A}}\bar{\text{I}}\bar{\text{A}}\bar{\text{r}}z\bar{\text{A}} \text{A}\bar{\text{U}}\bar{\text{A}}z\bar{\text{A}}\text{e} \text{A}\bar{\text{A}}\bar{\text{G}}\bar{\text{A}} \text{A}\bar{\text{J}}z\bar{\text{A}} \text{E}\bar{\text{E}}\bar{\text{A}}\bar{\text{U}}\bar{\text{A}}z\bar{\text{A}}\bar{\text{A}}\bar{\text{V}}\bar{\text{E}} \text{C}\bar{\text{q}}\bar{\text{A}}\bar{\text{T}} \bar{\text{A}}\bar{\text{V}} \text{M}\bar{\text{q}}\bar{\text{A}}\bar{\text{A}}\bar{\text{U}}\bar{\text{A}}\bar{\text{V}}\bar{\text{A}}\bar{\text{E}}\bar{\text{A}}\bar{\text{A}}\bar{\text{B}} \text{A}\bar{\text{A}}\bar{\text{A}}\bar{\text{A}}\bar{\text{A}}\bar{\text{V}}z\bar{\text{E}}.$
4. $\text{C}\bar{\text{P}}\bar{\text{A}}\bar{\text{I}} \text{A}\bar{\text{P}}\bar{\text{A}}\bar{\text{I}}z\bar{\text{A}} \text{g}\bar{\text{E}}\bar{\text{E}}\bar{\text{V}}\bar{\text{A}}\bar{\text{G}}\bar{\text{A}} \text{U}\bar{\text{E}}\bar{\text{E}}\bar{\text{A}}\bar{\text{C}}\bar{\text{A}}\bar{\text{A}}\text{C} \text{A}\bar{\text{U}}\bar{\text{A}}\bar{\text{V}}\bar{\text{A}} \text{S}\bar{\text{U}}\bar{\text{E}}\bar{\text{I}} \text{M}\bar{\text{A}}\bar{\text{A}} \text{V}\bar{\text{E}}\bar{\text{E}}\bar{\text{A}}\bar{\text{J}}z\bar{\text{A}}\bar{\text{Y}} \text{C}\bar{\text{A}}\bar{\text{A}}\bar{\text{G}}\bar{\text{A}} \text{E}\bar{\text{E}}\bar{\text{A}}\bar{\text{C}}\bar{\text{A}}\text{e} \text{C}\bar{\text{F}}\bar{\text{O}}z\bar{\text{A}}\bar{\text{G}}\bar{\text{A}}\bar{\text{A}} \text{V}\bar{\text{q}}\bar{\text{A}} \text{E}\bar{\text{E}}\bar{\text{I}} \text{Q}\bar{\text{E}} \text{G}\bar{\text{Y}}\bar{\text{A}}\bar{\text{A}}\bar{\text{A}}\bar{\text{A}}\bar{\text{A}} \text{A}\bar{\text{z}}\bar{\text{A}}\bar{\text{V}}\bar{\text{E}}\bar{\text{U}}\bar{\text{A}}\bar{\text{V}}\bar{\text{A}} \text{E}\bar{\text{Z}}\bar{\text{A}}\bar{\text{A}}\bar{\text{I}}.$

The subject has been analysed and the observation made are as under :-

- i) As per mining plan Aluminous Literate mine able Reserve is 1,45,922 MT.
- ii) As per the report of proponent-dated 02.08.2011, already 75,180 MT is already removed up to March 2010.
- iii) Thereby the balance quantity available for mine able arrives to 145922 MT- 75,180 MT = 70742 MT .
- iv) The lease period of 10 years is already over on 16.10.2010 (16.10.2001-16.10.2010)
- v) The applicant submit that he has applied for further renewal of 10 years.
- vi) The renewal notification is not forth coming from the Mines and Geology Department.
- vii) Even if the lease is renewed by the Mines and Geology Department for next 10 years then balance Reserve of 70,742 MT is to be mined sustainably over a period of 10 years and that means that EC can be considered for 70,742 MT/10 years = 7074 MT/Annum.

Taking into consideration the availability of ore remaining for extraction the Committee decided to issue environmental clearance for expansion of dolomite mining to 7074 Tonnes/year capacity to the project with the following conditions and

suggestions made by the Regional Director (Environment), Belgaum & after receipt of the specific social commitment plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum,
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.

14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-round the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter

informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda No. 3.16(63): M/s. Mangalore Minerals, FEE 88 ECO 2010

M/s. Mangalore Minerals have applied for Environment Clearance for their new Silica Sand Mining at ML.No.2048 Muloor Village, Udipi Taluk & District. Approved IBM Plan is obtained vide letter No. 279/393/93/BNG dated 05/11/2008.

The project proponent present in the meeting explained the project. The project comes under Coastal Zone Management as per the Regional Director (Environment) inspection report. The proposal for the environmental clearance was rejected. The Chairman directed the proponent to identify the Non-CRZ area where the same activity can be taken up and submit fresh application for the environmental clearance excluding CRZ areas.

Agenda No. 3.17(64): Sri. S. B. Angadi, M/s. Daneshwari Mines (FEE 149 ECO 2011)

Sri. S. B. Angadi, M/s. Dhaneshwari Mines, have submitted the application for environmental clearance for expansion of limestone mining capacity from 9,000 TPA to 40,000 TPA at ML. No. 2539, Sy. No. 128/4 & 5, Kaladigi village, Bagalkot Taluk & District. The KSPCB has issued CFE on 05.04.2011.

The project proponent present in the meeting explained about the project that they are proposing for expansion of limestone mining from 9,000 TPA to 40,000 TPA. As the Director, Mines & Geology was absent, the Committee decided that opinion of the DMG is required for mining of more than 25,000 Tonnes/year. Further, Committee decided to give environmental clearance for expansion of limestone mining for 25,000 Tonnes/year capacity.

The project proponent present in the meeting explained the project. The Committee decided that as this a mining project and proposed for expansion of limestone mining from 9000 TPA to 40000 TPA. The Committee discussed the issue in detail and considering the production details, it was decided to issue Environmental Clearance for mining 25,000 TPA. After deliberation, the Committee decided to obtain the following information from the project proponent :

After deliberation, the Committee decided to obtain the following information from the project proponent :

1. Compliance to the EC & CFE/CFO issued by the Department and KSPCB respectively.
2. Present production for last five years.
3. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance for mining 25,000 TPA to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.

3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum,
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.
14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-around the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.

21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.

Regional Director (Environment), Belgaum & after receipt of the specific social commitment plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.

8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda No. 3.19(66): M/s. Maruthi Limestone Mines, FEE 98 ECO 2011

M/s. Maruthi Limestone Mines have applied for Environment Clearance for the expansion of Limestone Minerals mining on a mining lease area of 2.43 ha at Chikkalagundi, M.L. No. 2302, Sy.N0.277, PO. Chikkalagundi, Bilagi Taluk, Bagalkot District, Karnataka State from the present production of 1000 TPA to 25000 TPA, which is 25 times higher than the present production. The Limestone from this mine will be used as flux in the steel making process, as raw materials in cement industry and fertilizer industry. Hence, it is supplied to the different industries and intermediate parties directly.

The Karnataka State Pollution Control Board has issued Consent For Establishment vide letter No. KSPCB/SEO/MINE/CFE/2010-11/68 dated 29.05.2010. Scheme of Mining is obtained vide letter No. MSH/MAN-183(KNT)/GOA/2009-10 dated 24.09.2009. Including progressive Mine Closure plan from IBM. The mineable reserves of lime stone is 2,30,947 Tonnes. Life of the mine is about 10 years. Tractor Mounted Compressor and Jack Hammers are used for drilling as indicated in IBM approved plan. The mining lease (ML.2302) is renewed on 17.04.2001 and is valid up to 20 years with effect from 26.01.1997 from Department of Mines and Geology, Government of Karnataka. Compliance to CFE conditions imposed by KSPCB is not submitted.

The project proponent present in the meeting explained about the project. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to 23000 MT/annum considering the mineable ore available for 10 years as per mining plan to the project with the following conditions after receipt of the specific social commitment plan from the project proponent.

1). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum,
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.

6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.
14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-round the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.

2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.

12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda No. 3.20 (67): Mallapa Mineral Industries, FEE 148 ECO 2011

M/s. Mallapa Mineral Industries have applied for Environment Clearance from SECC for expansion of existing White Quartz mining from 500 TPA to 6,000 TPA of capacity 10,000 TPA and new extraction of feldspar of capacity 10,000 TPA at Sy. No. 244, Mundur Village, Krishna Rajanagara Taluk, Mysore District at ML. No. 2383 of extent 4.04 Ha. The land comes under Private/B-Category/Non-Forest. The proponent has obtained IBM approved Mining Plan vide letter No.279/699/2001/BNG dated 12.03.2008 and mining Lease from Department of Mines and Geology vide letter No.DMG/MLS/55AML07/10263-70 dated 13.11.2008 and consent from KSPCB vide No. PCB/52/MIN/08/510 dated 19.11.2008. The site reserves consists of 215760 Tonnes of Quartz and 323640 Tonnes of feldspar. The mineral reserves are 162564 and 243846 Tonnes respectively. Compressor and Jack Hammers are used for drilling. The method of mining is open cast Manual mining. CFE dated 25.02.2002 issued by KSPCB is also not furnished.

The project proponent present in the meeting explained about the project. After deliberation, the Committee decided to issue environmental clearance for expansion of white quartz mining from 500 TPA to 6,000 TPA and new extraction of feldspar for 10,000 TPA capacity after obtaining the specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame from the project proponent.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the said specific social commitment plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.

3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Department of Ecology and Environment, Government of Karnataka, Bangalore.
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.
14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-around the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.

21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Department of Ecology and Environment, Government of Karnataka, Bangalore having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.

9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda No. 3.21(68): M/s. Seshasai Mining Company, FEE 69 ECO 2011

M/s. Sheshasai Mining Company., have submitted the application for environmental clearance for expansion of existing mining production capacity of Lime Stone from 19,000 tons/annum to 60,000 tons/annum in the existing lease area of 4.86 Ha. at Sy No. 32,33,34 ML No 2380, Thimmapur Village, Mudhol Taluk, Bagalkot District with an investment of Rs. 42.30 Lakhs.

The Regional Director (Environment), Belgaum has inspected this project on 17.06.2011 and reported on 23.06.2010 and suggested as follows: -

1. UAtNÁjPÉ ¥ÁzÉÁ:ÁZÁ ÁÁVÁD®/E °É/EAUÉ ªÁÁVÁÁD 1ªÁÁÁgÁVÉÁ eÁwÁÁÁ ÁÁªÁÁÁgÁÁ 1000 VqÁUÁVÁÁEÁÁB F ªÁÁVÉUÁ®ZÁ° ªÁÉÁÁ EÉI ÁÖ ¥É/EAÁÁ,ÁÁªÁÁZÁÁ.
2. E½eÁjUÉ CqÁD ÁV SzÁÁ ªªÁÁÁÖt ªÁÁÁr ªÁÁVÉ ªÁgÁÁ ÁÁUÁª, ÁÁªÁÁZÁÁ.
3. É/EAÁÁ¥ÁÁEgÁ-ªÁÁÁZÉ/EAÁÁ ªÁÁÁRÁ gÁÉUÉ EÁÁÁªÁÁ PÁÁEÁÁÁ gÁÉUÉ PÁªÁÁ× 1 Q.«ÁÁ.ZÁÁEÁÁEÁÁ gÁÉUÁÁÁ SÁUÉ EÉqÁÁVÉ/EAÁÁ ªÁÁÁr ¥É/EAÁÁ,ÁÁªÁÁZÁÁ.

The project proponent present in the meeting explained the project. The Committee decided that as this a mining project and proposed for expansion of limestone mining from 19,000 TPA to 60,000 TPA. The Committee discussed the issue in detail and considering the production details explained by the Mines & Geology Department, it was decided to issue Environmental Clearance for mining 25,000 TPA.

The Committee decided to issue environmental clearance for mining 25,000 TPA to the project with the following conditions after receipt of the Specific Social

Commitment Plan with details of the work proposed, place, budget allocated and time frame from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of ₹. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum.
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.

14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-round the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter

informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda 3.22(69): Lokapur Limestone Mine, FEE 63 ECO 2011.

Lokapur Limestone Mine., have submitted the application for environmental clearance for expansion of Limestone production. The Department Mins & Geology has issued M.L.No.2323 for a period of 20 years commencing from 16.01.2001, for an extent of 1.82 Ha. at Sy. No. 31/2A Lokapur Village, Mudhol Taluk District Bagalkot with an investment of ₹. 6.50 lakhs.

The Regional Director (Environment), Belgaum has inspected this project on 27.07.2011 and reported on 08.08.2011 and suggested as follows: -

- 1) eÁÉÁÁ ÁgÁÁUÁ½UÉ °Á±ÁñiÁUÁZÁÁVÉ vÁqÉÁñÁ®Á ¥ÁzÉÁ±ÁZÁ ÁÁVÁU®ÁÉ ÁÁÁÁÁÁi vÁAwÁÁÁ ÁÁ° CªÁ±ÁVÉ EzÉ.
- 2) ÁÁÁÁ D® ÁÁVÁÁU CgÁ½ Á¹UÁVÁÉÁÁB °Á¹gÁÁªÁ®ÁÁZÁ° è SqÁÁªÁ ÁÁVÁÉUÁ®ZÁ° ÁÁÉÁÁ ÉÉI ÁO ¥ÉÁÁ¶Á, ÁÁªÁZÁ®zÉÁ CPÁI ¥ÁPÁZÁ gÉÉVÁgÁ °ÉÁ®UÁVÁ SzÁÁUÁVÁ ÁÉÁÁ-É CªÁj UÉ EµÁPÁZÁ Á¹UÁVÁÉÁÁB ÁÉÉ¹ ¥ÉÁÁ¶Á, ÁÁªÁZÁÁ.
- 3) ÁÁÁÁÁU ÁÁVÁÁU ±ÁgÁÁ ÁÁgÁPÁÁÉUÁV PÁzÁÁUÁVÁÉÁÁB PÉÉUÉÁVÁÁiªÁZÁÁ.

The project proponent present in the meeting explained about the project. After deliberation, the Committee decided to obtain the following information from the project proponent:-

- 1) What is the production over last 5 years ?
- 2) Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project with the following conditions and suggestions made by the Regional Director (Environment), Belgaum & after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum,
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.

7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.
14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-round the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will

monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.

3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.

13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised

Agenda No. 3.23(70): M/s. Karanja Industries Pvt. Ltd., FEE 106 ECO 2011

M/s. Karanja Industries Pvt. Ltd., have submitted the application for environmental clearance for expansion of reclaimed rubber production capacity from 10 TPD to 25 TPD at Plot No.1, Kolhar Industrial Area, Kolhar (K), Bidar –District with an investment of Rs. 292.42 Lakhs.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame from the project proponent :

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the Specific Social Commitment Plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB

9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.29(76): M/s. Bill Forge Pvt. Ltd., FEE 111 ECO 2011

M/s. Bill Forge Pvt. Ltd., have submitted the application for environmental clearance for expansion of existing industry for increase in production of Steering race from 1920,000 pieces/month to 2112,000 pieces/month, Yokes from 130,000 units/month to 136,500 units/month, Retainer valve spring from 17,00,000 units/month to 1860,000 units/month, Sheet metal Parts from 850,000 units/month to 920,000 units/month and addition of three annealing furnace and new product to manufacture Roller ring of quantity 100,000 units/month in the existing premises at Plot No. 9C, Bommasandra Industrial Area, Bammasandra, Bangalore with an investment of Rs. 2.16 Crores. The KSPCB has issued CFE on 10.12.2010.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame following information from the project proponent :

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the Commitment with regard to contribute of Rs.1.00 lakh to Bannerghatta Biological National Park towards corporate Social responsibility from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.

3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance

Agenda No. 3.30(77): M/s. Eveready Industries India Ltd., (Power Cell Division), FEE 134 ECO 2011

M/s. Eveready Industries India Ltd., have submitted the application for renewal of environmental clearance issued vide No. FEE 103 ECO 2004 dated: 12.01.2005 for manufacturing of 72 TPA of zinc carbon dry cells at 7/A, KIADB Industrial Area, Somanahalli, Maddur – 571 428. The KSPCB has issued CFE on 29.10.2005.

The project proponent present in the meeting explained the project and submitted the application for proposed expansion project of manufacture of AA size batteries from 180 million/annum to 408 million/annum and D-Size-R20 of 60 million/annum, total 468 million/annum. After deliberation, the proponent has agreed to sponsor Rs.50,000 towards Bannerghatta Biological National Park for Social Commitment Plan.

The Committee further decided to renew environmental clearance issued and issue environmental clearance for manufacture of proposed AA size batteries form 180 million/annum to 408 million/annum and D-Size-R20 of 60 million, total 468 million/annum with the following conditions after receipt of the compliance to the EC and CFO issued earlier, plan for extended producers responsibility to collect back the unused batteries & cells and Commitment with regard to contribute of Rs.50,000 Bannerghatta Biological National Park towards corporate Social responsibility from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.

9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.

8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance

Agenda No. 3.31(78): Sadashiva Sugars Ltd, FEE 146 ECO 2011

M/s. Sadashiva Sugars Ltd., have submitted the application for environmental clearance for expansion of sugar crushing unit from 2500 TCD to 3500 TCD at Nagara-Nainegali, NH- 13, Bagalkot Taluk & District.

The project proponent present in the meeting explained the project. The Committee has discussed about the source of raw material, recycling of water, capacity of production etc., and proponent has agreed to sponsor Rs.1.00 lakh towards Bannerghatta Biological National Park for Social Commitment Plan. After deliberation, the Committee decided to obtain the following information from the project proponent :

1. CFE issued for the proposed expansion.
2. Compliance report for the Environmental Clearance and CFE/CFO conditions issued earlier.
3. Commitment with regard to contribute of Rs.1.00 lakh to Bannerghatta Biological National Park towards corporate Social responsibility.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I) The project proponent shall:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB..
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Ensure interlocking arrangement for ESP with separate electric meter should be provided. Daily log book for the electric meter reading should be maintained and monthly extract to be submitted to Regional Director (Environment) Ecology and Environment Department and Regional Office, KSPCB.
4. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
5. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
6. Not discharge wastewater outside the premises of the industry and details of disposal plan should be submitted within 3 months. Use STP/ETP treated water for sugarcane seed farm/gardening and for toilet flushing and separate pipelines should be laid for the purpose
7. Earmark 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auricaliformis, Mahgoni, Madhuka indica, Silver oak, Pongamia, Simaruba glauca, etc within 6 months and submit compliance report.
8. Utilize solar power for street lighting, common areas lighting and water heating in the industry and also ensure replacement of conventional electric bulbs with CFL within 6 months and submit report.
9. Submit a report on the details of health checkup programmes conducted to the Director, Factories & Boilers Department immediately. In future a quarterly report should be submitted in this regard.
10. Comply with all the environmental protection measures incorporated in the EMP. Utilization of land shall be restricted to 35 acres which is already in possession of the project authorities.
11. Use only bagasse as fuel.
12. Ensure 100% utilization of ash from the date of operation of the plant. Ash may also be mixed with press mud and composted and used as manure/ given to farmers.
13. Meet water requirement from the existing available water allocation. No ground water shall be drawn for the power plant at any stage.
14. Ensure installation of dust extraction and suppression system and water sprinklers for controlling fugitive dust during transport of material and in vulnerable areas of the plant.
15. Limit noise level to 75 dBA. For people working in high noise area, requisite personal protective equipment like earplugs, etc. shall be provided.

16. Regularly carry out the air and water quality monitoring in and around the power plant and records be maintained. Six monthly reports shall be submitted to this Department.
17. Advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the vernacular language of the locality concerned, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the this Department and the Karnataka State Pollution Control Board.
18. Set up a separate environment management cell with qualified staff for implementation of the stipulated environmental safeguards.
19. Allocate separate funds for implementation of Environmental protection measures along with item-wise break-up. These costs shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure shall be reported to this Department.
20. Inform this Department and the Regional Director (Environment), Ecology and Environment Department regarding the date of financial closure and final approval of the project by the concerned authorities and the dates of start of land development work and commissioning of plant.
21. Make a fresh reference to the Department to assess the adequacy of the condition(s) imposed and to add additional environmental protection required, if any, in case of fresh proposal for any deviation or alteration in the project proposed from those submitted to this Department for clearance
22. Obtain all other statutory clearances /permissions required to be taken by the company
23. Submit six monthly compliance report to these conditions to the Department without fail.
24. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environmental Impact Assessment Report and the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.

3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under and the Environment Impact Assessment Notification, 2006.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc., shall be provided with ear plugs/muffs.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are

envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.32(79): M/s. Parrys Sugars Industries Ltd., FEE 41 ECO 2009

M/s. Parrys Sugar Industries Ltd., (Formerly GMR Industries Ltd) have submitted the application for environmental clearance expansion of sugar plant from 2500 TCD to 4000 TCD capacity and co-generation plant of 13 MW at 285, Khanapet-591 114, Ramdurg Taluk, Belgaum Dist.

The proponent has not submitted the following information:

1. CFE issued from the KSCP/B for proposed expansion.
2. Onsite emergency plan approved from the Factories and Boilers Department.
3. Location marked on 1:50,000 scale toposheet.

Regional Director, inspected the factory site and submitted the following non compliance:

1. *Project proponent has not submitted the compliance report for environmental clearance condition.*
2. *Proponent has not installed electro static precipitator.*
3. *Only 1000 samplings have been planted.*
4. *Power plant is already commissioned to generate 4 MW power.*

The project proponent present in the meeting explained the project. The Committee has discussed about the source of raw material, recycling of water, capacity of production etc., and proponent has agreed to sponser Rs.1.00 lakh towards Bannerghatta Biological National Park for Social Commitment Plan. After deliberation, the Committee decided to obtain the following information from the project proponent :

1. CFE issued for the proposed expansion (for 4000 TCD sugar plant and 13 MW co-generation plant)
2. Compliance report for the Environmental Clearance and CFE/CFO conditions issued earlier.
3. Commitment with regard to contribute of Rs.1.00 lakh to Bannerghatta Biological National Park towards corporate Social responsibility.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I) The project proponent shall:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB..
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Ensure interlocking arrangement for ESP with separate electric meter should be provided. Daily log book for the electric meter reading should be maintained and monthly extract to be submitted to Regional Director (Environment) Ecology and Environment Department and Regional Office, KSPCB.
4. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
5. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
6. Not discharge wastewater outside the premises of the industry and details of disposal plan should be submitted within 3 months. Use STP/ETP treated water for sugarcane seed farm/gardening and for toilet flushing and separate pipelines should be laid for the purpose
7. Earmark 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auricaliformis, Mahgoni, Madhuka indica, Silver oak, Pongamia, Simaruba glauca, etc within 6 months and submit compliance report.
8. Utilize solar power for street lighting, common areas lighting and water heating in the industry and also ensure replacement of conventional electric bulbs with CFL within 6 months and submit report.
9. Submit a report on the details of health checkup programmes conducted to the Director, Factories & Boilers Department immediately. In future a quarterly report should be submitted in this regard.
10. Comply with all the environmental protection measures incorporated in the EMP. Utilization of land shall be restricted to 35 acres which is already in possession of the project authorities.
11. Use only bagasse as fuel.
12. Ensure 100% utilization of ash from the date of operation of the plant. Ash may also be mixed with press mud and composted and used as manure/ given to farmers.
13. Meet water requirement from the existing available water allocation. No ground water shall be drawn for the power plant at any stage.
14. Ensure installation of dust extraction and suppression system and water sprinklers for controlling fugitive dust during transport of material and in vulnerable areas of the plant.
15. Limit noise level to 75 dBA. For people working in high noise area, requisite personal protective equipment like earplugs, etc. shall be provided.
16. Regularly carry out the air and water quality monitoring in and around the power plant and records be maintained. Six monthly reports shall be submitted to this Department.

17. Advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the vernacular language of the locality concerned, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the this Department and the Karnataka State Pollution Control Board.
18. Set up a separate environment management cell with qualified staff for implementation of the stipulated environmental safeguards.
19. Allocate separate funds for implementation of Environmental protection measures along with item-wise break-up. These costs shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure shall be reported to this Department.
20. Inform this Department and the Regional Director (Environment), Ecology and Environment Department regarding the date of financial closure and final approval of the project by the concerned authorities and the dates of start of land development work and commissioning of plant.
21. Make a fresh reference to the Department to assess the adequacy of the condition(s) imposed and to add additional environmental protection required, if any, in case of fresh proposal for any deviation or alteration in the project proposed from those submitted to this Department for clearance
22. Obtain all other statutory clearances /permissions required to be taken by the company
23. Submit six monthly compliance report to these conditions to the Department without fail.
24. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environmental Impact Assessment Report and the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.

4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under and the Environment Impact Assessment Notification, 2006.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc., shall be provided with ear plugs/muffs.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.33(80): M/s. Indian Sugar Manufacturing Co. Ltd., (FEE 68 ECO 2010)

M/s. Indian Sugars Manufacturing Company, have submitted the application for environmental clearance for Establishment of 2500 TCD sugar plant and 9 MW Co-generation power plant Havinal Village, Indi Taluk, Bijapur District with an investment of Rs.4,933.00 lakhs.

The subject was placed in the SECC meeting held on 09.06.2011 and the subject was deferred as the proponent was absent.

The subject was placed in the SECC meeting held on 06.07.2011 and the project proponent was not present in the meeting. The Committee perused the project. After deliberation, the Committee decided to obtain the following information from the project proponent:

1. Inspection report from the Regional Director (Environment), Gulbarga.
2. Land records
3. Consent for Establishment issued by KSPCB.
4. Toposheet.
5. Permission obtained from the Water Resources Department.
6. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to consider this project after obtaining the above information from the project proponent.

The project proponent has submitted the above information except Toposheet and informed that the application for obtaining State Environmental Clearance for 2500 TCD sugar plant and 9 MW co-generation of power plant has been submitted. Since they have decided to enhance the co-generation capacity and obtained the MoEF, GoI clearance for co-generation plant.

The project proponent has requested vide letter No. ISMCL/ADM/1266/2011-12 dated: 11.10.2011 to issue the environmental clearance only for 2500 TCD sugar plant and the KSPCB has issued CFE for 2500 TCD sugar plant vide CFE No. PCB/INDIAN SUGARS/2008-09/190 dated: 24.06.2009.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain environmental clearance obtain for co-generation plant, compliance to CFE issued by the KSPCB and the Specific social commitment plan with details of the work proposed, place, budget allocated and time frame from the project proponent :

The Committee further decided to issue environmental clearance only to 2500 TCD sugar plant with the following conditions after receipt of the above informations from the project proponent.

I) The project proponent shall:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB..
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Ensure interlocking arrangement for ESP with separate electric meter should be provided. Daily log book for the electric meter reading should be maintained and monthly extract to be submitted to Regional Director (Environment) Ecology and Environment Department and Regional Office, KSPCB.
4. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
5. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
6. Not discharge wastewater outside the premises of the industry and details of disposal plan should be submitted within 3 months. Use STP/ETP treated water for sugarcane seed farm/gardening and for toilet flushing and separate pipelines should be laid for the purpose
7. Earmark 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auricaliformis, Mahgoni, Madhuka indica, Silver oak, Pongamia, Simaruba glauca, etc within 6 months and submit compliance report.
8. Utilize solar power for street lighting, common areas lighting and water heating in the industry and also ensure replacement of conventional electric bulbs with CFL within 6 months and submit report.
9. Submit a report on the details of health checkup programmes conducted to the Director, Factories & Boilers Department immediately. In future a quarterly report should be submitted in this regard.
10. Comply with all the environmental protection measures incorporated in the EMP. Utilization of land shall be restricted to 35 acres which is already in possession of the project authorities.
11. Use only bagasse as fuel.
12. Ensure 100% utilization of ash from the date of operation of the plant. Ash may also be mixed with press mud and composted and used as manure/ given to farmers.
13. Meet water requirement from the existing available water allocation. No ground water shall be drawn for the power plant at any stage.
14. Ensure installation of dust extraction and suppression system and water sprinklers for controlling fugitive dust during transport of material and in vulnerable areas of the plant.

15. Limit noise level to 75 dBA. For people working in high noise area, requisite personal protective equipment like earplugs, etc. shall be provided.
16. Regularly carry out the air and water quality monitoring in and around the power plant and records be maintained. Six monthly reports shall be submitted to this Department.
17. Advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the vernacular language of the locality concerned, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the this Department and the Karnataka State Pollution Control Board.
18. Set up a separate environment management cell with qualified staff for implementation of the stipulated environmental safeguards.
19. Allocate separate funds for implementation of Environmental protection measures along with item-wise break-up. These costs shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure shall be reported to this Department.
20. Inform this Department and the Regional Director (Environment), Ecology and Environment Department regarding the date of financial closure and final approval of the project by the concerned authorities and the dates of start of land development work and commissioning of plant.
21. Make a fresh reference to the Department to assess the adequacy of the condition(s) imposed and to add additional environmental protection required, if any, in case of fresh proposal for any deviation or alteration in the project proposed from those submitted to this Department for clearance
22. Obtain all other statutory clearances /permissions required to be taken by the company
23. Submit six monthly compliance report to these conditions to the Department without fail.
24. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environmental Impact Assessment Report and the Environment Management Plan along with the

additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.

3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under and the Environment Impact Assessment Notification, 2006.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc., shall be provided with ear plugs/muffs.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.

14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.34(81): M/s. Novozymes South Asia Pvt. Ltd., FEE 17 ECO 2010

M/s. Novozymes South Asia Pvt. Ltd., have submitted the application for environmental clearance for establishment R&D activity (i.e. protein optimization & consist of molecular biotechnology procedures-creating molecular variants of enzymes and testing them out in assay to find improved candidates) of enzymes at Sy. No. Plot No. 32, 47-50, EPIP area, Whitefield, Bangalore. with an investment of Rs. 1,200 Lakhs. The KSPCB has issued CFE on 22.06.2007. The proponent shall submit the detailed Bio safety plan and measures proposed. An MoU has to be furnished for disposal of molecular waste enzymes.

The subject was deferred as the proponent remained absent.

**Agenda No. 3.35(82): M/s. Honeywell Technology Solutions Lab Pvt. Ltd.
FEE 109 ECO 2011**

M/s. Honeywell Technology Solutions Lab Pvt. Ltd., have submitted the application for environmental clearance for establishment of new R &D Centre in the field of transport Lab, teardown, & Sensing and control at 151/1, Doraisanipalya, Bannerghatta Road, Bangalore with an investment of Rs. 15 Crores. The KSPCB has issued CFE on 17.03.2011. Source of water is shown as BWSSB but no commitment letter/sanction made is furnished by the proponent.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the Commitment of water supply by the BWSSB and Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame from the project proponent :

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.

4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the

project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.36(83): M/s. Bosch Ltd., FEE 150 ECO 2011

M/s Bosch Ltd., have submitted the application for Environmental Clearance for expansion of existing industry to manufacture additional products Spark plugs including accessories from 30 million Nos/annum to 50 million Nos/annum and Auto electrical-starter motors & Generators form 2.65 million Nos/annum to 3.55 million Nos/annum at plot No. 51 to 61, Hanger No. 701 & 730, Naganathapura, PB No.6887, Electronic City Post, Bangalore with an investment of Rs. 60 Crores. The KSPCB has issued CFE on 22.08.2011.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the following information from the project proponent :

- 1) Water balance chart with percentage of recycling.
- 2) Details of green belt developed with photographs.
- 3) Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above informations from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.

11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.

12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.37(84): M/s. LM Wind power (India) Pvt. Ltd., FEE 147 ECO 2011

M/s. LM Wind Power (India) Pvt. Ltd., have submitted the application for environmental clearance for expansion to increase the production of FRP Rotor Blades from 1000 MT/Month to 2000 MT/Month and for installation of additional air pollution sources viz, 750 KVA DG Sets (2Nos) in the existing premises at Plot No. 85, KIADB Industrial area, Phase-II, Thimmanayakanahalli, Nelamangala Taluk Bangalore Rural District with an investment of ₹. 75 Crores. The KSPCB has issued CFE on 22.10.2011.

The project proponent present in the meeting explained the project. The Proponent has agreed to sponsor Rs.3.00 lakhs towards Bannerghatta Biological National Park for Social Commitment Plan. After deliberation, the Committee decided to obtain the following information from the project proponent :

1. Compliance to the EC issued earlier.
2. Commitment with regard to contribute of Rs.3.00 lakh to Bannerghatta Biological National Park towards corporate Social Commitment Plan.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.

5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Undertake river bank/canal bank afforestation programme.
9. Comply with all the environmental protection measures incorporated in the EMP.
10. Obtain all other statutory clearances /permissions required to be taken by the company
11. Submit six monthly compliance report to these conditions to the Department without fail.
12. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
13. The project proponent shall also maintain the road from project site to main road.
14. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.

13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.38(85): M/s. United Breweries Ltd., FEE 143 ECO 2011

M/s. United Breweries Ltd., have submitted the application for environmental clearance for setting up of a beer manufacturing unit of capacity 1 Lakh KLPA. at Sy. No. 268 to 273, 275, 276 & 277 of Thoremavu Village, Sy. No. 349 to 354 & 529 of Immavu Village, Chikkayana Chikkayana Chatra Hobli, Nanjangud Taluk, Mysore District.. The KSPCB has issued CFE on 26.08.2011.

The project proponent present in the meeting explained the project that source of raw material is barley which is purchased from local farmers and source of water from river and agreed to sponsor Rs.5.00 lakhs towards Bannerghatta Biological National Park for Social Commitment Plan. After deliberation, the Committee decided to obtain the following information from the project proponent :

1. Onsite emergency plan approved by the Factories and Boilers Department.
2. Ambient air quality analysis report from the approved laboratory.
3. Built up area with details.
4. Commitment with regard to contribute of Rs.5.00 lakh to Bannerghatta Biological National Park towards corporate Social Commitment Plan.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. 12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.39(86): M/S. Shanthala Spherocast Pvt. Ltd., FEE 85 ECO 2011

M/s. Shanthala Spherocast Pvt. Ltd., have submitted the application for environmental clearance for expansion of increasing the production capacity of SG & CI Casting & Ductile Iron Castings from 8400 TPA to 10,200 TPA and for installation of additional air pollution sources; Electrically Operated Induction Furnance 1000 Kgs/750 KW (in place of existing Induction Furnace- 1000 Kgs/250 KW), DG Set 750 KVA and shot Blasting Machine – 2 TPH at the existing premises at No. 36 B, Shimoga Bhadravathi Industrial Area, Machenahalli, Shimoga with an investment of ₹. 36.81 Crores. The KSPCB has issued CFE on 21.10.2010.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the following information from the project proponent.

1. Compliance to the CFO issued by the KSPCB.
2. Status of implementation of action plan prepared by the KSPCB for combating this critically polluted Industrial area.
3. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame from the project proponent :

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above informations from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.

4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

**Agenda No. 3.40(87): M/s. Honeywell Technology Solutions Lab Pvt. Ltd.,
FEE 152 ECO 2011**

M/s. Honeywell Technology Solutions Lab Pvt. Ltd., have submitted the application for environmental clearance for establishment of new R & D activities in the areas of new technology development for plastics, testing & evaluation of new gas sensors for HLS application for all pollutant gases, Solenoid valve testing & Validation & new Water purification Technology at No. 345/338, CDC Building, Doraisanipalya, Bannerghatta Road, Bangalore. with an investment of Rs. 7.5 Crores. The KSPCB has issued CFE on 22.12.2010.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the following information from the project proponent:-

1. Compliance to the CFE/CFO issued by the KSPCB.
2. Approved onsite emergency plan from the Factories and Boilers Department.
3. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

1). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.

12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.41(88): M/s. Someshwar Sugars Ltd., FEE 125 ECO 2011.

M/s. Someshwar Sugars Ltd., have submitted the application for environmental clearance for establishment of sugar plant of sugarcane crushing capacity of 2500 TCD and co-generation plant of 15 MW at Sy. No. 349, 370 & 385, Kambagi Village, Bijapur Taluk & District. The KSPCB has issued CFE on 22.10.2011.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the onsite emergency plan approved by Factories and Boilers Department and Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame from the project proponent :

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the approved onsite emergency plan and Specific Social Commitment from the project proponent.

I) The project proponent shall:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB..
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Ensure interlocking arrangement for ESP with separate electric meter should be provided. Daily log book for the electric meter reading should be maintained and monthly extract to be submitted to Regional Director (Environment) Ecology and Environment Department and Regional Office, KSPCB.
4. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
5. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
6. Not discharge wastewater outside the premises of the industry and details of disposal plan should be submitted within 3 months. Use STP/ETP treated water for

sugarcane seed farm/gardening and for toilet flushing and separate pipelines should be laid for the purpose

7. Earmark 33% of the project land for green belt and afforest with tree species like: Neem, *Alstonia scholaris*, *Saraca indica*, *Acacia auricaliformis*, Mahgoni, *Madhuka indica*, Silver oak, *Pongamia*, *Simaruba glauca*, etc within 6 months and submit compliance report.
8. Utilize solar power for street lighting, common areas lighting and water heating in the industry and also ensure replacement of conventional electric bulbs with CFL within 6 months and submit report.
9. Submit a report on the details of health checkup programmes conducted to the Director, Factories & Boilers Department immediately. In future a quarterly report should be submitted in this regard.
10. Comply with all the environmental protection measures incorporated in the EMP. Utilization of land shall be restricted to 35 acres which is already in possession of the project authorities.
11. Use only bagasse as fuel.
12. Ensure 100% utilization of ash from the date of operation of the plant. Ash may also be mixed with press mud and composted and used as manure/ given to farmers.
13. Meet water requirement from the existing available water allocation. No ground water shall be drawn for the power plant at any stage.
14. Ensure installation of dust extraction and suppression system and water sprinklers for controlling fugitive dust during transport of material and in vulnerable areas of the plant.
15. Limit noise level to 75 dBA. For people working in high noise area, requisite personal protective equipment like earplugs, etc. shall be provided.
16. Regularly carry out the air and water quality monitoring in and around the power plant and records be maintained. Six monthly reports shall be submitted to this Department.
17. Advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the vernacular language of the locality concerned, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the this Department and the Karnataka State Pollution Control Board.
18. Set up a separate environment management cell with qualified staff for implementation of the stipulated environmental safeguards.
19. Allocate separate funds for implementation of Environmental protection measures along with item-wise break-up. These costs shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure shall be reported to this Department.
20. Inform this Department and the Regional Director (Environment), Ecology and Environment Department regarding the date of financial closure and final approval

of the project by the concerned authorities and the dates of start of land development work and commissioning of plant.

21. Make a fresh reference to the Department to assess the adequacy of the condition(s) imposed and to add additional environmental protection required, if any, in case of fresh proposal for any deviation or alteration in the project proposed from those submitted to this Department for clearance
22. Obtain all other statutory clearances /permissions required to be taken by the company
23. Submit six monthly compliance report to these conditions to the Department without fail.
24. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environmental Impact Assessment Report and the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under and the Environment Impact Assessment Notification, 2006.

7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc., shall be provided with ear plugs/muffs.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.42(89): M/s. Hydromatik Pvt. Ltd., FEE 52 ECO 2011

M/s. Hydromatik., have submitted the application for environmental clearance for Propose to Manufacture Hydraulic Fittings Viz. (On weight baseis – 20 MT/month) Couplings- 45,000 Nos. per month Elbows – 27,000 Nos per months Tees – 24,000 Nos. per month Banjo Couplings – 27,000 Nos. per month Adaptors – 36,000 Nos. per month at Sy. No. 67/1, Plot No. 419 Navage Village, Taluk & District Belagavi. with an investment of ` . 5.098 Crores.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the following information from the project proponent :

1. Onsite emergency plan approved by the Factories and Boilers Department.
2. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.

3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.43(90): M/s. Buhler (India) Pvt. Ltd., FEE 142 ECO 2011

M/s. Buhler (India) Pvt. Ltd., have submitted the application for environmental clearance for expansion of existing industry to manufacture food grain processing machinery from 30000 T/A to 36000 T/A and to establish application mill centre, training centre and assembly section. at Plot No. 13-D, 12D, 13C and 13B, KIADB Industrial Area, Attibele, Anekal Taluk, Bangalore – 562 107. The KSPCB has issued CFE on 08.03.2011.

The project proponent present in the meeting explained the project. The proponent has committed Rs.1.00 lakh to sponsor Bannerghatta Biological National Park toward corporate Social Commitment Plan. After deliberation, the Committee decided to obtain the following information from the project proponent.

1. Approved onsite emergency plan.
2. Compliance to the EC/CFE issued for the existing plant.
3. Commitment with regard to contribute of Rs.1.00 lakh to Bannerghatta Biological National Park towards corporate Social responsibility.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

1). The project proponent shall abide by the following conditions:

1. Install Thermal Oxidizer to destruct VoC compounds in the paint booth.
2. Strictly follow the CFE/CFO conditions issued by the KSPCB
3. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
4. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
5. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
6. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
7. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
8. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
9. Comply with all the environmental protection measures incorporated in the EMP.
10. Obtain all other statutory clearances /permissions required to be taken by the company

11. Submit six monthly compliance report to these conditions to the Department without fail.
12. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
13. The project proponent shall also maintain the road from project site to main road.
14. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.

9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.44(91): M/s. DMS Technologies Pvt. Ltd, FEE 114 ECO 2011

M/s. DMS Technologies Pvt. Ltd., have submitted the application for environmental clearance for establishment of new industry to manufacture Printed Circuit Board of capacity 20,000 SQM per Annum at Plot No. 34 Belavadi Industrial Area, Mysore District with an investment of ₹. 8, 87, 93,416. The KSPCB has issued CFE on 27.01.2009.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the following information from the project proponent.

1. MoU signed for disposal of Hazardous waste.
2. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.

3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the

project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.45(92): M/s. Flax Hydro Energy Pvt. Ltd., FEE 137 ECO 2011

M/s. Flax Hydro Energy Pvt. Ltd., have submitted the application for environmental clearance for setting up of mini hydel power plant of capacity 1.5 MW (2 X 750 KW) at Hydel Scheme, Sy. No. 49, Aremadanalli Village across Hemavathy H.L.C., Hemavathy Reservoir at Arkalgud Taluk, Hassan District. The KSPCB has issued CFE on 25.04.2011.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan

with details of the work proposed, place, budget allocated and time frame from the project proponent :

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the Specific Social Commitment Plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Undertake river bank/canal bank afforestation programme.
9. Comply with all the environmental protection measures incorporated in the EMP.
10. Obtain all other statutory clearances /permissions required to be taken by the company
11. Submit six monthly compliance report to these conditions to the Department without fail.
12. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
13. The project proponent shall also maintain the road from project site to main road.
14. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated

conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.

3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.

14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.46(93): 3M India Ltd., FEE 87 ECO 2011

M/s. 3M India Ltd., have submitted the application for environmental clearance for expansion of existing industry for increase the production of automotive graphics from 564,000 Sq.ft/month to 22,73,225 Sq.ft/month by installation of GPC-4 i.e., Sakurai Printing line-2 in addition to the existing products at plot 48-51, Electronics City, Hosur Road, Bangalore. with an investment of ₹. 4,26,81,719. The KSPCB has issued CFE on 12.05.2011.

The project proponent present in the meeting explained the project that source of raw material is imported from Japan and Thailand. The proponent has committed Rs.2.00 lakh to sponsor to Bannerghatta Biological National Park toward corporate Social Commitment Plan.

After deliberation, the Committee decided to obtain the following information from the project proponent.

1. Compliance to the existing CFO issued by the KSPCB.
2. Commitment with regard to contribute of Rs.2.00 lakh to Bannerghatta Biological National Park towards corporate social responsibility.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.

7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.

7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.47(94): Sri. G.S.Horatti Minerals.,FEE 99 ECO 2011

Sri. G.S. Horatti Minerals have submitted the application for environmental clearance for expansion of Limestone mining from 2,500 TPA to 25,000 TPA at M.L.No.2360, in Sy. No 30, in Kalasakoppa Village, Bagalkot Taluk & District in an area of 4.856 Ha(10 times increase in production). The proponent has obtained CFE from KSPCB for expansion vide letter No. KSPCB/SEO/MINES/CFE/2010-/240 dated 09/12/2010. He has also submitted scheme of mining including progressive mine closure plan. Approved by IBM vide letter No. MSH/MAN-185 (KNT)/GOA/2009-10 dated; 23/09/2009. The Mining Lease (No.2360) is renewed on 03/07/2002 and is valid upto 20 years. The mineral reserves are 10, 00,720 Tonnes. The life of mine is 40 years.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to issue Environmental Clearance for limestone mining for 25,000 TPA after obtaining the compliance to the CFO and specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame from the project proponent.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

1). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.
4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum,
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.

14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-round the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.
22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed

and to incorporate additional environmental protection measures required, if any.

5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

**Agenda No. 3.48(95): Sri. K.H.Sabarad, Hebbal Limestone and Dolomite Mine
FEE 121 ECO 2011**

Sri. K.H.Sabarad, Hebbal Limestone and Dolomite Mine, have submitted the application for environmental clearance for expansion of limestone mining to extract

57,000 tons/annum at ML. No. 2493, Sy. No. 118 (P), Hebbal Village, Mudhol Taluk, Bagalkot District.

The SEAC while considering similar other projects in consultation with the officials of Mines & Geology Department has restricted Environmental Clearance to 25,000 MT/Annum in cases of about 4 to 5 hectares of mining. The proposed expansion is from 30000 TPA to 57000 TPA.

The project proponent present in the meeting explained about the project. After deliberation, the Committee decided to take up the subject after obtaining the opinion from the Department of Mines and Geology. Further, Committee decided to obtain the following information from the project proponent :-

1. Copy of EC & CFE/CFO issued earlier and compliance report.
2. CFE for the proposed expansion.
3. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

Agenda No. 3.49(96): M/s. Triton Valves Ltd., FEE 103 ECO 2011

M/s. Triton valves Ltd., have submitted the application for environmental clearance for expansion of the existing industry to increase the production of Automotive Tyre Tube valves from 600 Lakhs/annum to 1700 Lakhs/annum, valve crores for 800 Lakhs/annum to 1500 Lakhs/annum and upgradation of existing ETP located at Mercara Road, Belavadi, Mysore with an investment of Rs. 47 Crores The KSPCB has issued CFO on 07.06.2011 from 01.07.2010 to 30.06.2011.

The project proponent present in the meeting explained the project. The proponent clarified that electroplating for cyanide is not being attended. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame including contribution of Rs.1 Lakh to Bannerghatta Biological National Park as committed.

The Committee further decided to issue environmental clearance to the project after receipt of Specific Social Commitment Plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.

3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the

project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.50(97): M/s. Laird Technologies India Pvt. Ltd., FEE 42 ECO 2011.

M/s. Laird Technologies India Pvt. Ltd., have submitted the application for environmental clearance for setting up of material science research and development laboratory at Unit-3, 4th Floor, Navigator Building, ITPL, Whitefield Road, Bangalore- 560 066. The KSPCB has issued CFE on 28.05.2008.

The subject was deferred as the proponent remained absent.

Agenda No. 3.51(98): M/s. Bhoruka Power Corporation Ltd. (FEE 142 ECO 2008)

M/s. Bhoruka Power Corporation Ltd., have submitted the application for environmental clearance for setting up of 10 MW capacity Hydro power generation plant in the name of Manjanadka Mini Hydel Scheme at Sy. No. 425/170, 420/328, 425/331, 421/156, 425/274, 400, 401 & 517, Karike Village, Kodagu District. The proposed project fall in the Western Ghats area. The KSPCB has issued CFE on 03.03.2007.

The subject was placed in the SECC meeting held on 02.09.2009 and the project proponent was present in the meeting and explained about the project. The Committee has decided to invite the proponent to present the project in the next meeting after the receipt of the following information and also to inform the project proponent to stop the construction until getting the Environmental Clearance. The project fall in the western ghat area.

1. Environment Management Plan.
2. Eco-restoration plan.
3. Specific social commitment plan with name of the place & work, budget allocated and the time frame.
4. Land required for transmission line.
5. Forest clearance for transmission line.
6. Evacuation line and power house indicating in 1:50,000 scale toposheet.

The project proponent has submitted the following information/documents.

1. Water Resource Department clearance issued vide letter No. JASAME 16 MMH 2002 dated: 19.11.2002.
2. Diversion of land under Forest (Conservation) Act, 1980.
 - a. For diversion of 3.144 Ha forest land in Sy. No. CPT-70, 71, 425/P2 of Karike Village, Pattighat RF, Madikeri Forest Division, Kodagu District G. O. No. FEE 37 FLL 2007 dated: 25.01.2008.
 - b. For diversion of 4.923 ha of forest land for construction of 33 KV line G. O. NO. FEE 36 FLL 2007 dated: 25.01.2008.
3. Evacuation of power generation –Karnataka Power Transmission Corporation Ltd., letter No. CFE(G)/SEE (PLG)/EE(PSS)/1753-63 dated: 03.06.2002.
4. Allotment of mini hydel G. O. No. DE 74 NCE 99 dated: 10.04.2002.
5. Environmental management plan.
6. Eco-restoration plan.
7. Specific social commitment plan with name of the place & work, budget allocated and the time frame.
8. Evacuation line and power house indicating in 1:50,000 scale toposheet.

The project proponent present in the meeting explained the project. The Committee also observed that necessary clearance under Forest (Conservation) Act, 1980 has been obtained by the proponent from the State Government & Government of India. After deliberation, the Committee decided to obtain the Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame from the project proponent.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the Specific Social Commitment Plan from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Undertake river bank/canal bank afforestation programme.
9. Comply with all the environmental protection measures incorporated in the EMP.
10. Obtain all other statutory clearances /permissions required to be taken by the company
11. Submit six monthly compliance report to these conditions to the Department without fail.
12. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
13. The project proponent shall also maintain the road from project site to main road.
14. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.

12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.52(99): M/s. Magnesium & Allied Products, FEE 130 ECO 2011.

M/s. Magnesium & Allied Products, have submitted the application for environmental clearance for manufacture of Technical grade magnesium oxide, light magnesium carbonate and light magnesium oxide of capacity 1875 MTPA, 3000 MTPA and 150 MTPA respectively at Sy. No. 77/P1, 76/1B, 77/P2, 74/1B, Hurugalavadi Village, Koppa Hobli & Post, Maddur taluk – 571 425, Mandya Dist. The KSPCB has issued CFE on 03.08.2011 and Department of Factories and Boilers has issued site clearance vide letter No. CSMC/SAC/CR-42/2009-10 dated: 31.03.2010.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the following information from the project proponent :

1. Onsite emergency plan approved by the Department of Factories and Boilers.
2. Location marked on the 1:50,000 scale toposheet.
3. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB.
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.

5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. If the built up area exceeds 20,000 Sq.mtrs then the project proponent should approach SEIAA for environmental clearance.
14. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.

6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.53(100): M/s. Grindwell Norton Ltd., FEE 91 ECO 2011

M/s. Grindwell Norton Ltd., is an old industry, and have submitted the application for environmental clearance for expansion of existing industry to increase the production of ceramics and abrasives at Sy. No. 110, Devanahalli Road, Off Old Madras Road, Bangalore with an investment of ₹. 3480 Lakhs. Area occupied by building- **existing is 36,422 Sqm. and to be occupied for proposed Expansion is 3,000 Sqm.** The KSPCB has issued CFE on 12.10.2011.

The project proponent present in the meeting explained the project. The proponent has committed Rs.2.00 lakh to sponsor Bannerghatta Biological National Park toward corporate Social Commitment Plan. After deliberation, the Committee

decided to obtain the compliance to the CFO issued by the KSPCB & Commitment with regard to contribution of Rs.2.00 lakh to Bannerghatta Biological National Park towards corporate Social responsibility from the project proponent.

The Committee further decided to examine whether this project attract the EIA notification, 2006 or otherwise and incase if it does not attract the EIA notification, 2006 then to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.

2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.
7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.

13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.54(101):M/s. Tokai Rubber Auto Parts Ltd., FEE 14 ECO 2011

M/s. Tokai Rubber Auto Parts Ltd., have submitted the application for environmental clearance for expansion to additional facility viz., degreasing phosphating and painting without increase in production capacity in the existing unit of Automotive Ancillary Rubber Products at Plot No. 337, KIADB Harahalli Industrial Area, Kanakapura Taluk, Ramanagar District with an investment of ` . 6300 Lakhs. The KSPCB has issued CFE on 07.07.2011.

The project proponent present in the meeting explained the project. The proponent has committed Rs.2.00 lakh to sponser Bannerghatta Biological National Park toward corporate Social Commitment Plan. After deliberation, the Committee decided to obtain the following information from the project proponent.

- 1) Compliance to the CFO issued by the KSPCB for the existing unit.
- 2) MoU entered for disposal of Hazardous Waste.
- 3) Commitment with regard to contribute of Rs.2.00 lakh to Bannerghatta Biological National Park towards corporate Social responsibility.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.

6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.

7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.

11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.55(102):M/s. Tyro Energy., FEE 141 ECO 2011

M/s. Tyro Energy, have submitted the application for environmental clearance for manufacture of Green Oil (Recycled Rubber Oil) of capacity 200 TPM and by-products Carbon Black of 150 Tons/month and Steel of 1500 Kg/month at Sy.No.17/2, Hanumanthapura, Billankote Post, Somapura Hobli, Nelamangala Taluk, Bangalore with an investment of Rs.6,87,50,000. The KSPCB has issued CFE on 07.09.2011.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain the following information from the project proponent.

1. Onsite emergency plan approved by Factories and Boilers Department.
2. MoU for disposal of Hazardous Waste to TSDF.
3. Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis, Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.
6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. 11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda No. 3.56(103): Sri. Srinivas K. Timmanagoudar, (FEE 22 ECO 2011)

Sri. Srinivas K. Timmanagoudar, have submitted the application for environmental clearance for Hirehandigol Quartz Mine, ML.NO. 2326 Sy. No. 236/1A Gadag, Taluk, & District, Karnataka. with an investment of ₹ 9.50 lakhs.

The subject was placed in the SECC meeting held on 09.06.2011. The Committee decided to consider this project after obtaining inspection report from Mines and Geology Department regarding the maximum ore that can be sustainably mined/extracted in an year.

In response to Government letter vide dated 18.07.2011, Director, Mines & Geology in their letter dated 31.10.2011 have informed that ML area is having about One Lakh tones of Quartz deposit above the ground level. Further, they are of the opinion, if project proponent is given permission to mine for 45000 tons/annum, within 2 ½ years, the ore will get exhausted, instead of that since the proponent has mining lease for a period of 20 years with effect from 31.10.2001 and since 10 years of mining have already been completed, for the remaining 10 years lease period Mines and Geology Department have given opinion to extract 10,000 tons per annum.

The project proponent present in the meeting explained the project. The Committee discussed the issue in detail and decided to issue Environmental Clearance for mining 10,000 TPA of Quartz Mine only after obtaining compliance to the existing CFO issued by the KSPCB and specific social commitment plan with details of work proposed, place, budget allocated and time frame from the project proponent.

The Committee further decided to issue environmental clearance for mining 10,000 TPA to the project with the following conditions after receipt of the above information from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Environment Protection Fee at the rate of Rs. 84,000 (Rupees, Eighty Four Thousand only) per hectare shall be paid to the Department of Mines and Geology and remitted to the Head of account "0406-01-800-0-11 Environment Protection Fee" as per the Government Order No. FEE 25 ENG 2008, dated 04.02.2009.
2. The Department of Mines and Geology shall grant Mining Lease/quarrying Lease only after ascertaining that the Environment Protection Fee is paid in full by project proponent.
3. The Karnataka State Pollution Control Board and the District administration shall ensure that the Environment protection fee is paid in full as per the Government Order before the issue of necessary Consent of Operation or any other statutory clearance/s for mining/quarrying.

4. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and half year records be submitted to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum,
5. Transportation of ore shall be done by covering the trucks with tarpaulin or with other suitable mechanism so that no spillage of ore/dust takes place. Transportation shall be done only during day time.
6. Submit the location map of the mining area on survey map of India Topo-sheet of 1: 50,000 scale with 5.0 kms buffer. The longitude and latitude readings of the site and the GPS readings of the boundary points need to be given.
7. Construct on the slopes of the hillock and along the boundary of the area a rough stone wall of about 1.5 feet height to arrest loose soil flow in to adjoining fields and nalas.
8. Bring to order and improve the working of the mine. Since it is a small area proper dumping of wastes should be strictly done. Terracing of the area of 10 mts contour intervals needs to be done for stabilizing loose soil and for ground water recharging.
9. Strictly follow the CFE conditions issued by the KSPCB.
10. Carry out mining and other related activities according to the mining plan approved by the IBM and within the approved area.
11. Fix four feet tall pillars with yellow and black paint with M. L. No. painted at all the corner points of the mining area.
12. Carry out environmental management plan as per the mining plan approved by the IBM.
13. Dispose of solid waste in a scientific manner without causing pollution to underground and surface water directly or indirectly.
14. Strictly maintain the SPM & RSP level within the prescribed standard at areas within the mining area.
15. Adopt rainwater harvesting in the industry and submit report.
16. Not to discharge wastewater outside the premises of the mining area.
17. Obtain all other statutory clearances/permissions required to be taken.
18. Earmark 33% of the project land for green belt and afforest within 6 months and submit the compliance report. Immediately take up planting of 3 rows of plants all-around the mine area in the buffer zone and on the approach road sides up to 2 Kms length.
19. Submit soil and moisture conservation plan within one month and implement the same within six months.
20. Carryout health checkups for labourers and employees of the mining activity once in six months and submit report.
21. Submit Half Yearly compliance report to the conditions prescribed to the Department and to the Regional Director (Environment), Department of Ecology and Environment, Government of Karnataka, Belgaum having jurisdiction without fail.

22. The project proponent shall also maintain the road from project site to main road.
23. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Ecology and Environment, Government of Karnataka reserves the right to withdraw this Environment Clearance subject to any change in the policy by the Government.
2. The Department of Ecology and Environment, Government of Karnataka; the Regional Director (Environment), Belgaum and the Regional Officer, KSPCB, will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days. The Regional Director (Environment), Belgaum should also display a copy of the letter in his office notice board for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for Environment Clearance, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the Environment Clearance letter informing that the project has been accorded Environment Clearance and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and Rules there under.
7. The Department of Ecology and Environment, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.

9. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
10. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
11. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
12. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
13. The validity of Environmental Clearance is co-terminus with mining lease period granted under MM(D&R) Act,1957. The proponent shall obtain revised Environmental Clearance in case of increase in the production/area is revised.

Agenda No. 3.57(104): M/s. Zircast Ltd.,FEE 139 ECO 2011

M/s. Zircast Ltd., have submitted the application for environmental clearance for expansion of Investment Castings-400 MT/A, Centrifugal Castings-150 MT/A, Wire Rod Castings-75 MT/A at No.37, 2nd Phase, Jigani Industrial Area, Bangalore-562106 with an investment of Rs.15.04 Crores. The KSPCB has issued CFO on 19.02.2008.

The project proponent present in the meeting explained the project. After deliberation, the Committee decided to obtain compliance on the CFO for the existing unit and Specific Social Commitment Plan with details of the work proposed, place, budget allocated and time frame.

The Committee further decided to issue environmental clearance to the project after receipt of above details from the project proponent.

I). The project proponent shall abide by the following conditions:

1. Strictly follow the CFE/CFO conditions issued by the KSPCB
2. Strictly follow the conditions of on-site emergency plan approved by the Department of Factories & Boilers.
3. Dispose solid waste in a scientific manner without causing underground and surface water pollution directly or indirectly.
4. Adopt rainwater harvesting in the industry within the next 6 months and submit compliance report.
5. Earmark minimum 33% of the project land for green belt and afforest with tree species like: Neem, Alstonia scholaris, Saraca indica, Acacia auriculiformis,

Mahogany, Madhuka indica, Silver oak, Pongamia, Simaruba glauca etc within 6 months and submit compliance report.

6. Scientifically dispose the wastes generated in the project such as waste gear/lubricating oil, batteries etc., strictly as per rules.
7. Provide sanitary facilities such as sufficient number of toilets/bathrooms/septic tank/soak pits for the employees of the project.
8. Comply with all the environmental protection measures incorporated in the EMP.
9. Obtain all other statutory clearances /permissions required to be taken by the company
10. Submit six monthly compliance report to these conditions to the Department without fail.
11. The project proponent should display the conditions prominently at the entrance of the project on a suitable size board for the information of the public.
12. The project proponent shall also maintain the road from project site to main road.
13. The proponent shall execute social commitment plan as committed by him and submit the report to the Department.

II). General Conditions:

1. The Department of Environment and Ecology, Government of Karnataka reserves the right to withdraw this EC subject to any change in the policy by the Government.
2. The Department of Environment and Ecology, Government of Karnataka and the Regional Office, KSPCB will monitor the implementation of the stipulated conditions. A complete set of documents including the Environment Management Plan along with the additional information submitted from time to time shall be forwarded to the Regional Office for their use during monitoring.
3. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Deputy Commissioner's office/ Tahsildar's Office for 30 days.
4. In case of any deviation or alteration in the project proposal from that of the proposal submitted for EC, a fresh reference shall be made to this Department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
5. The project authorities should advertise at least in two local newspapers widely circulated in the State, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the EC letter informing that the project has been accorded EC and a copy of the clearance letter is available with the State Pollution Control Board.
6. The above stipulations shall be enforced along with other relevant laws as under, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, The

Manufacture, Storage and Import of Hazardous Chemical Rules, 1989, Hazardous Wastes (Management and Handling) Rules, 1989, the Public Liability Insurance Act, 1991 and rules there under.

7. The Department of Environment and Ecology, Government of Karnataka reserves the right to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the Department.
8. Fugitive dust emission from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.
9. Measures shall be taken for control of noise levels below 85 dBA in the work environment.
10. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
11. The Ecology and Environment Department or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
12. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
13. The issuance of Environment Clearance doesn't confer any right to the project proponent to operate/run the project without obtaining Statutory clearances/sanctions from all other concerned authorities.
14. The Environmental clearance shall be valid and would require amendments only in case of changes relating to process, operation, product or capacity. If these are envisaged then proponent shall apply afresh and obtain environmental clearance.

Agenda 5:- General Issues:-

- (i) The Committee deliberated on the issue of Mini Hydel Projects of less than 25 MW capacity which are being established in the State in non forest land of Maiden areas, which needs to be encouraged considering the production of cleaner energy and utilizing the natural water ways in a non consumptive manner. Such cleaner technologies of producing electricity are to be encouraged which are not involving forest areas in Western Ghats and to be exempted from the Environmental Clearance. It was also discussed that the Consent for Establishment and Operation to be issued by the Board for such Mini Hydel Projects may not be warranted as there is no air or water pollution issues involved under Air and Water Act. Likewise other simplification procedures in consent mechanism to be adopted by the Board also need to be examined. It was felt that a separate meeting needs to be convened with the KSPCB to examine

these issues of exempting CFE & CFO to be issued by the Board for such Mini Hydel Projects.

- (ii) It was also decided that number of proposals of mining of Dolomite and Lime Stones are being received for environmental clearance which are less than 5 Hectares with different capacities. A yardstick is to be fixed considering its sustainability of production vis-à-vis the area proposed for mining. It was therefore decided that a separate meeting need to be held with the Secretary to Government, Commerce and Industries Department and Director, Mines & Geology Department to examine the issues of sustainability of less than 5 Hectares of mining and quantum of extraction to be fixed considering the extent of lease considered by the Mines & Geology Department.

Agenda 6:- Any other subjects with the permission of the Chair

The meeting ended with vote of thanks to the chair.

ANNEXURE

List of Members present in the meeting of the State Environment Clearance Committee
held on 03.11.2011

- 1 Shri. Kaushik Mukherjee, IAS
Additional Chief Secretary to Government,
Forests, Ecology and Environment Department,
M S Building,
Bangalore.
- 2 Sri Kanwerpal, IFS
Secretary to Government,
(Ecology and Environment)
Forest, Ecology and Environment Department,
M S Building,
Bangalore.
- 3 Dr. M. H. Balakrishnaiah,
Special Director (Technical Cell)
Forest, Ecology and Environment Department,
M S Building,
Bangalore.
- 4 Sri. Venkatesh Shekar,
Environment Officer,
Karnataka State Pollution Control Board,
No.49, Parisara Bhavan, Church Street,
Bangalore.
- 5 Under Secretary to Government,
Water Resources Department,
Vikasa Soudha, Bangalore-560 001.
- 6 Sri M. Sureshprajap Singh,
ADTP (TPM Section)
Bangalore Development Authority,
Bangalore.
- 7 Sri.N.C.Poornima,
Assistant Director,
Industries and Commerce Department,
Khanija Bhavan, Race Course Road,
Bangalore-560 001.

- 8 Additional Director, (Mineral),
Dept of Mines and Geology,
Khanija Bhavan,
Race Course Road,
Bangalore-560 001.
- 9 Sri. A R Vijayendra,
Joint Director
Factories and Boilers Department,
Karmika Bhavan,
Industrial Training Centre Complex,
Bannerghatta Road, Bangalore -560 029.
- 10 Sri. Shantala.M.S,
For Director,
Town & Country Planning Department,
113, Ground Floor, M. S. Building,
Bangalore -560 001.
- 11 Sri.Abul Mohsin,
Deputy Drugs Controller, Drugs Control Dept., P.
B. No. 5377, Place Road, Bangalore 560 001
- 12 Sri. K.Girish,
Scientific Officer,
Ecology and Environment Department,
Bangalore.
- 13 Sri. A. Raghu,
Scientific Officer,
Ecology and Environment Department,
Bangalore.
- 14 Sri. Dodda Aswatha Narayana Swamy,
Scientific Officer,
Ecology and Environment Department,
Bangalore.
